

WPSA UK Spring Meeting 2022
Preliminary Timetable

Date 13 & 14 April	Session name	Type	Time start	Time end	Total time	Book of Abs	Abstract id	Title	Presenter	Chair
Wed 13 April	Opening	Council	09:30:00	09:40:00	00:10:00			Open Annual WPSA meeting	Emily Burton	
Wed 13 April	Session 1	Invited	09:40:00	10:20:00	00:40:00	1		What can mother hens teach us about welfare and sustainability in egg	Jo Edgar	Emily Burton
Wed 13 April	Session 1	oral	10:20:00	10:35:00	00:15:00	2	8	What is the phenotypic variation and heritability of premaxillary and dentary bone shape in pure line White Leghorn laying hens?	Sarah Struthers	Emily Burton
Wed 13 April	Session 1	oral	10:35:00	10:50:00	00:15:00	3	17	Sustainable broiler productions without supplementation of inorganic phosphorus: a meta-analysis of four studies	Saad Gilani	Emily Burton
Wed 13 April	Session 1	Break	10:50:00	11:30:00	00:40:00					
Wed 13 April	Session 1	Hammond (BSAS)	11:30:00	12:45:00	01:15:00			Hammond Lecture (BSAS)		
Wed 13 April	Session 1	Lunch	12:45:00	14:15:00	01:30:00			Poster people in attendance from 13:30		
Wed 13 April	Session 2	Invited	14:15:00	14:55:00	00:40:00	4		Automating welfare assessment in poultry: what are the best options?	Lucy Asher	Ian Dunn
Wed 13 April	Session 2	oral	14:55:00	15:10:00	00:15:00	5	16	Do enrichments commonly provided to laying hens encourage appropriate behaviours?	Victoria Sandilands	Ian Dunn
Wed 13 April	Session 2	short	15:10:00	15:17:30	00:07:30	6	3	New intrinsically thermostable xylanase improves performance, organ weights, and affects intestinal viscosity and pH of broilers	Veerle Van Hoeck	Ian Dunn
Wed 13 April	Session 2	Break	15:17:30	16:05:00	00:47:30					
Wed 13 April	Session 3	oral	16:05:00	16:20:00	00:15:00	7	6	The effects of myo-inositol and phytase supplementation on the tibia bone characteristics of 35 day old broiler chickens.	Hannah Scott-Cook	Vicky Sandilands
Wed 13 April	Session 3	oral	16:20:00	16:35:00	00:15:00	8	15	The distribution of gastrin, cholecystokinin and their receptors expression suggests a role of CCK in the chicken crop	Ian Dunn	Vicky Sandilands
Wed 13 April	Session 3	short	16:35:00	16:42:30	00:07:30	9	10	Effect of pelleting process on particle size of commercial poultry feeds	M. Naeem	Vicky Sandilands
Wed 13 April	Session 3	short	16:42:30	16:50:00	00:07:30	10	18	The response of male and female broiler chicken antioxidant status to xylanase and a fermentable xylo-oligosaccharide supplementation	Antonija Šimić	Vicky Sandilands
Wed 13 April	Session 3	Break	16:50:00	17:00:00	00:10:00					
Wed 13 April	GMT	GMT	17:00:00	18:00:00	01:00:00			Gordon Memorial Trust Lecture 'Whither Hen Welfare?'	Prof Christine Nicol	Stephen Lister
Wed 13 April	GMT	END	18:00:00					GMT reception		
Thurs 14 April	Session 4	oral	09:30:00	09:45:00	00:15:00	11	1	Interactive effects of breed and faba bean feeding on broiler performance	Jos Houdijk	Laura Beeson
Thurs 14 April	Session 4	oral	09:45:00	10:00:00	00:15:00	12	22	Ammonia emissions from broiler production under modern systems	Elizabeth Ball	Laura Beeson
Thurs 14 April	Session 4	short	10:00:00	10:07:30	00:07:30	13	9	Does the rate of starch digestion predict the feeding value of wheat for broiler chicken?	Marko Tukša	Laura Beeson
Thurs 14 April	Session 4	short	10:07:30	10:15:00	00:07:30	14	7	The effect of dietary phytase and myo-inositol on the breast fillet meat quality of broilers chickens reared to 35 days of age.	Lucy Hinch	Laura Beeson
Thurs 14 April	Session 4	short	10:15:00	10:22:30	00:07:30	15	11	Evaluating different bone processing methods used in assessing mineralisation in broilers	Ashraf Alkhtib	Laura Beeson
Thurs 14 April	Session 4	Break	10:22:30	11:00:00	00:37:30					
Thurs 14 April	Session 5	oral	11:00:00	11:15:00	00:15:00	16	5	In-feed peracetic acid precursor nanoparticles improve reused litter exposed broilers performance	Salvatore Galgano	Patrick Garland
Thurs 14 April	Session 5	oral	11:15:00	11:30:00	00:15:00	17	20	Chromium propionate improves performance and carcass traits in broilers	Alexandra Desbruslais	Patrick Garland
Thurs 14 April	Session 5	oral	11:30:00	11:45:00	00:15:00	18	2	Sensitivity of dry matter, ash and crude protein apparent ileal digestibility to starter feed form, grower and finisher inclusion of faba beans and stunning method in male broilers	Jos Houdijk	Patrick Garland
Thurs 14 April	Session 5	short	11:45:00	11:52:30	00:07:30	19	14	The effect of papaya seed and neem leaf meal on performance and health of layer chicken	Metekia Tamiru Tasew	Patrick Garland
Thurs 14 April	Session 5	Lunch	11:52:30	13:30:00	01:48:00			Poster people in attendance from 12:45		
Thurs 14 April	Prizes	Council	13:30:00	14:00:00	00:30:00			AGM and Prizes	Emily Burton	
Thurs 14 April	Session 6	Invited	14:00:00	14:40:00	00:40:00	20		Processed animal protein as a feed ingredient for poultry – the feed industry's perspective	Ade Adebisi	Patrick Garland
Thurs 14 April	Session 6	Invited	14:40:00	15:20:00	00:40:00	21		Processed animal protein as a feed ingredient for poultry – EU and renderers' perspectives	Carine van Vuure	Patrick Garland
Thurs 14 April	Session 6	END	15:20:00	15:25:00	00:05:00			Close	Emily Burton
